Accessing eLab 2012 R2 Remote Desktop Farm

Elab.business.colostate.edu is a Remote Desktop Session Host farm loaded with applications used for your coursework. It can be accessed with a Remote Desktop client in a browser, via Remote Desktop Gateway or a COB Lab PC.

eLab access from outside of the campus network or your personal computer

If you are a distance student or working remotely, eLab is available via the CSU Secure Access Gateway. More information is available at <https://www.acns.colostate.edu/security/#1478123290932-b568bb1a-09e4>.

Browse to <https://secure.colostate.edu> with Google Chrome, Mozilla Firefox or Microsoft Edge. Internet Explorer will require an additional ActiveX control install.

Sign in with your CSU **eName** and **ePassword**.

eLab access via Remote Desktop Gateway

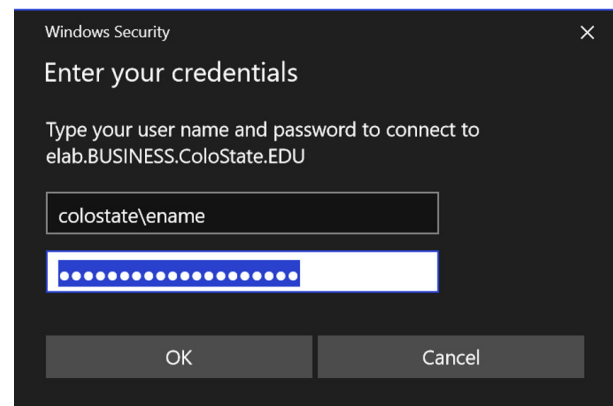

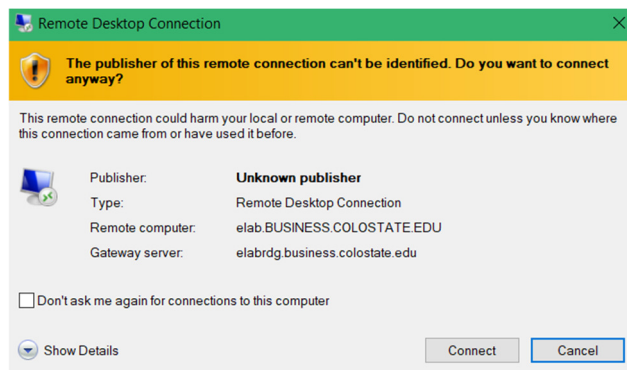

Working remotely or on campus, eLab can be accessed via Remote Desktop Gateway.

Download this pre-configured RDP file for Windows or Mac. <http://csubz.us/elab12R2RDP>

Windows clients

The RDP file will open with your default Remote Desktop Connection client and prompt you to accept using a pre-configured file.

Sign in with your **colostate\ename** and **ePassword** credentials.

Mac clients

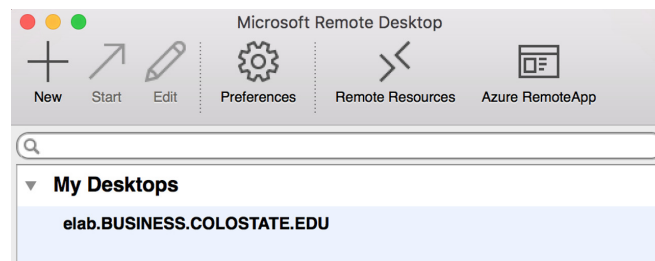

Install the **Microsoft Remote Desktop** app from the Mac App Store

<https://itunes.apple.com/us/app/microsoft-remote-desktop/id715768417?mt=12>

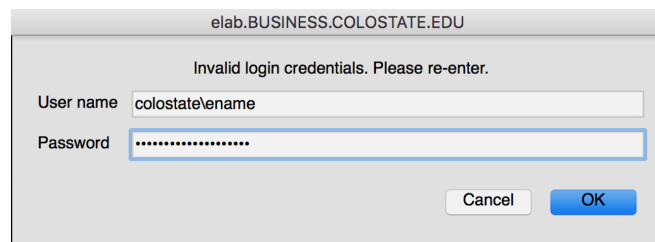

Open Microsoft Remote Desktop, click **File, Import...** and select the downloaded RDP file.

Start the connection

Sign in with your **colostate\ename** and **ePassword** credentials.

When your session is complete, **sign out** from the Start screen by clicking on your user name in the top right corner of the screen.
