CIS 570 - BI Project – Part 1

Option C

1. Complete the SQL Server 2012 BI Cube Building using DILLARDS exercise - http://walton.uark.edu/enterprise/Microsoft/downloads/Example_SQL2012_BI_Cube_Building_using_DILLARDS.pdf

2. **Please Note:** You will need login information (username and password) for the University of Arkansas' Enterprise System. Contact Hussein Al Rousan (cis570sc@gmail.com) for the login info.

3. Slice and dice the cube to find information (minimum of six) that is of interest to you.

4. Create any **two** Pivot Charts with your choice of categories, series and filters. Add suitable titles and labels and format the charts as you see fit. Copy and paste the charts into a document (e.g., Word) file. For each chart, provide a short (two to five sentences) narrative that describes the purpose of the graph and the insight(s) that could be gained from it.

5. Submit the answers for steps 3 and 4 as a DOC/DOCX, PDf or TXT attachment.
